* 4 units available

Nestled on the picturesque southwest coast of Sumba Island, this enchanting project is enveloped by stunning beaches and world-class surf breaks. Sanu Bari is in close proximity, Pantai Marosi 5mins, Pantai Wainukaka 10mins, and Periscopes 15mins.

Spanning two hectares, it features four exquisite private retreats, each offering breathtaking, unobstructed views of the shimmering Indian Ocean. This idyllic development has been meticulously designed for families and individuals who cherish spaciousness, tranquility, and the essence of barefoot luxury amidst nature's splendor.

The Villas set a new standard in residential living, departing from traditional models with four exceptional properties spanning two prime hectares along the stunning Indian Ocean. Designed in a single-story Mid-Century Modern style, each residence embodies private luxury and is strategically crafted to serve as an essential sanctuary for relaxation and introspection. The vibrant landscape features vital communal spaces, including saltwater pools, a gym, a sauna, and an ice bath in recovery areas on the hillside, which actively foster a strong sense of community. This environment not only encourages gathering and connection but also ensures an unparalleled living experience that prioritizes well-being and serenity.

Created by an experienced developer with a history of completing and selling three large residential properties. Each property will feature a 240 sqm living space and a 1000 sqm buffer zone for privacy, while most of the grounds will be mutually enjoyed and shared. Buyers can opt into a communal rental pool. Construction is scheduled to start in 2026 and is expected to take 12-18 months to complete the entire project.
